EDUCATION

SEPTEMBER 2011	CARTHAGE COLLEGE - KENOSHA, WISCONSIN
MAY 2015	Bachelor of Arts Degree in Computer Science

WORK EXPERIENCE

AUGUST 2015	Software Engineer at BLIPPY
NOVEMBER 2015	Worked on a small team building a GIF keyboard and organization app for iOS; Used Xcode, writing Objective-C and Swift, to improve and add features to the app; Used Android Studio to start an Android version of the app.
SEPTEMBER 2014	Software Developer Intern at CARS.COM
DECEMBER 2014	Built a web application using the Spring Framework to allow Cars.com developers to query and retrieve images from three separate databases through a single request; worked on the backend team to create a search engine optimized application for vehicle recall information.
JUNE 2014	Computer Science Researcher at NORTH CAROLINA STATE UNIVERSITY
AUGUST 2014	Researched trust in recommendation systems in order to recommend items to users from their most trusted peers; wrote papers on trust and video capture performance between various different file formats; wrote a web app to help students peer review each other's papers by automatically keeping track of their suggestions with GitHub issues - pdfreviewhub.appspot.com
SEPTEMBER 2013	Tutor/Student Instructor at CARTHAGE COLLEGE
MAY 2014	Tutored students in computer science classes.
JUNE 2013	Software Developer at STORYTELLER SOFTWARE
DECEMBER 2013	Recreated the frontend, using Javascript, to create a more maintainable code base; recreated the backend's Java HTTP server to use a RESTful API; introduced the project to other students.

LANGUAGES AND TOOLS

- Have substantial experience with Java, JavaScript, Dart and C++.
- Have some experience with Swift, Ruby, Python, Go, Objective-C, C#, CoffeeScript and Clojure.
- Have experience with the Spring Framework, the MEAN stack, JQuery, Android, iOS, and more.
- Have experience with Linux, Sublime Text, Atom, Eclipse, Visual Studio, IntelliJ, Git, Mercurial and more.

PROJECTS - MORE AT [MPETERSON2.GITHUB.IO](https://mpeterson2.github.io)

KANBAN – <https://github.com/mpeterson2/kanban>

Kanban is my senior thesis project at Carthage College. It is a single page web app written with the MEAN stack, meant for teams who want to use electronic Kanban boards.

TURBO WOOKIE – <https://github.com/turbowookie/turbo-wookie>

Turbo Wookie is a collaborative jukebox; a group of people can start up a Turbo Wookie instance, share the address amongst themselves, and build a playlist that they'll be able to listen to concurrently.

SAVE SESSION – <https://github.com/mpeterson2/save-session>

Save Session is a highly configurable package for the Atom text editor that remembers previous sessions. It automatically restores any files whether they are saved to disk or not, projects, window information and more.
